Top Tips
How To
Keep Your
Hat On

If your Hat or Headpiece has elastic it goes under the hair

Tie your hair loosely in a ponytail or bun

Position the headpiece or hat so it feels comfortable with the elastic behind your ears

Remove ponytail or bun

Tease out some hair and style covering the elastic

Select a small piece of hair, spritz with a little hairspray and wrap around the elastic each side

Bobby Pins can be used for further grip

Do not place the elastic under your chin as that is just silly!

Tips If your Hat or Headpiece has combs

Place the Hat or Headpiece on your head to work out where it is going to sit

Take it off remember where the combs were

Slightly backcomb those small sections of hair and spritz with a little hairspray

Spritz the combs with a little hairspray (taking care not to get on the Hat or Headpiece) and position on your head whilst still damp

The combs should grip and hold when pushed through the hair

Bobby Pins can be used for further grip

Bobby Pins

Bobby Pins are your secret weapon

Always use in twos and cross them to secure

Spritz with hairspray small sections of hair before
using the bobby pins

Bobby Pins can be used on the elastic, hair wraps
and combs

Which way round?

Generally Hats and Headpieces have a front and back

Combs to the front label to the back

Traditionally, a Hat or Headpiece is worn on the right-hand side

If you have a parting to the side of your face this is where you should position the headpiece with the bulk of the hair being able to be styled.

You can however wear it how it feels most comfortable on either side of your head

Everyone and I mean **EVERYONE**, can wear a hat **CONFIDENTLY**.

There are no rules to wearing a hat, you just need to make sure it fits with your **VALUES** and **STYLE**, it **ENHANCES** your best bits and coordinates your outfit with ease.

Once you have purchased your hat, practice wearing it before the event, and try different hairstyles to see what looks best.

On the day, stand tall, shoulders back, deep breath, you have got this.

Go and be fabulous and enjoy yourself.
